

# Programs in the Park

## Walk with a Naturalist

**Sunday, June 8**

**2:00-3:00 PM**

*led by Peter Kurtz*

Wander along the creek trail, through the hillside and around meadow with Peter Kurtz, professional nature specialist, to learn more about the commonplace and delve deeper into the unique features of High School Park. This promises to be a walk of discovery, right in our community backyard!

Join Ruth Pfeffer, professional birder, as we look and listen for life all around us. Catch her boundless enthusiasm as we learn more about our feathered friends through storytelling, group discussion, and of course a stroll through the park to identify many varieties of birds through sight and sound. This event is geared toward elementary age children, however **ALL** ages are welcome to attend.

## Story and a Stroll

**Sunday, July 13**

**10:00-11:30 AM**

*led by Ruth Pfeffer*

## Autumn Stargazing

**Tuesday, October 7**

(Cloud date October 8)

**7:00-8:30**

*led by Albert Lamperti*

Gaze at the autumn sky by the light of the moon on this evening adventure with Al Lamperti, Observing Chairperson of the Delaware Valley Amateur Astronomers Association. Through the use of telescopes, a laser pointer, and the naked eye, Al will help us identify and understand what we see above.

For all Programs in the Park:

- Wear comfortable shoes for walking the trails.
- Meet at the High School Park shed, near the intersection of Montgomery Ave. and High School Rd.
- Events take place unless extreme weather conditions occur.
- Children are welcome at all programs and must be accompanied by an adult.
- RSVPs very much appreciated, but not necessary

Programs in the Park are free events sponsored by Friends of High School Park
